

**Remarks**

Claim 14 has been amended. This amendment is understood to be appropriate for placing the claims in better condition for Appeal, as discussed by Examiner Bae during a June 9, 2008 telephone conversation with Eric J. Curtin (Reg. No. 47, 511) and per Examiner Bae's return telephone message on June 10, 2008. Applicant submits that the Section 101 rejection of claim 14 is no longer applicable in view of the amendment, which specifies that the limitation "transmission medium" is "in a computer" and thus involves statutory subject matter.

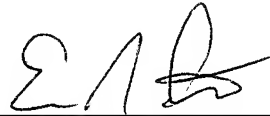

An Appeal Brief addressing the remaining rejections as set forth in the Final Office Action is forthcoming. For purposes of appeal, the Applicant understands that the Section 101 rejection of claim 14 is no longer applicable, and further that the above amendment to claim 14 will have been entered.

Should there be any remaining issues that could be readily addressed over the telephone, the Examiner is asked to contact the agent overseeing the application file, Peter Zawilski, of NXP Corporation at (408) 474-9063 (or the undersigned).
